

NIKOMAX NMC-222 is designed for precision cutting wires and other delicate electrical work. Pliers length of the cutting edge - 10 mm. Suitable for copper conductors and other soft metals to 1 mm (18AWG). Not suitable for steel.

When working with cable systems, wire cutters are indispensable for sealing modules. Hardened, and with exact fitting of the blades ensure clean cuts, which close to the surface of the connectors.

Precision cable cutter will also be useful for cutting wires in complex design: to remove the screens, films, filaments and discontinuous separation of spider cables for Cat. 6 cables.

Package Content

Precision cable cutter - 1 pcs.

Specification

	NMC-222
Material	Hardened Middle Carbon Steel
Material of handles	Anti-slip thermoplastic (TPR)
Color	Orange-Black
Temperature range	Storage -20 to +70 ° C. Operating from -10 to +50 ° C
Warranty	1 Year
Packaging	Individual - Blister pack
