

Patch Panels

Patch Panel, with Angled Jacks, 1U

Patch Panels are designed for connecting different SCS subsystems and network equipment to each other with patch cords.

NIKOMAX NMC-RP24-BLANK-AN-1U-MT has a standard height of 1U and 24 ports for NIKOMAX angled jacks Series AN (Panel is compatible with any standard keystone jacks). A feature AN series module is with an angled design allows you to conveniently lay patch cords to the side and fasten them to the vertical cable organizer. This solution eliminates the need for standard cable shunting rings, saving valuable space in the cabinet.

The patch panel is made of 1.5 mm steel and is suitable for both shielded and unshielded jacks. For better shielding against electromagnetic interference and improve communication with unpainted rails cabinet, galvanized steel panels coated with nickel.

The patch panels offer removable organizers for routing incoming cables.
