

NIKOMAX NMC-S501B is designed for stripping and cutting twisted-pair, coaxial and flat multi-conductor cables. The tool is equipped with 2 slots for guiding the stripping round cables (with an external diameter of up to 9.5 mm), two blades with limiters for stripping flat cables. There is also a blade for cutting cables.

A distinctive feature of this tool is the presence of the wheel that allows you to accurately and easily adjust the depth of cut. For example, you can push a blade exactly 0.5 mm, which will guarantee an incision only the outer shell without damaging the insulation or live cable shield.

Package Content

Cable stripper - 1 pc.
